

# PHARMAGEN LIMITED

Striving To Serve Humanity

THE LEADING PRODUCER OF **API**  
[ Active Pharmaceutical Ingredients ] in Pakistan

# INTRODUCTION

## A BRIEF OVERVIEW OF THE COMPANY

- Pharmagen Limited is the leading cGMP compliant and ISO certified Manufacturer of Active Pharmaceutical Ingredients (API's) in Pakistan, currently producing number of different molecules in the Penicillins and Cephalosporins range on separate and dedicated production plants at its manufacturing facility near Lahore, Pakistan. The facility is capable of producing around 1300 Tons API's per annum.
- A new multipurpose production facility has started its commercial operations in 2014.
- The company was established in 1990 by a group of highly dedicated professionals and technocrats having proven experience in successfully promoting and managing bulk drugs projects.
- The Company's business model is based on long term strategic business relationship with customers and suppliers. Our long term relationship with multinational and quality conscious companies testifies to Pharmagen's commitment to product quality and customer satisfaction.
- Dynamism and professionalism have been the hallmark of Pharmagen's growth through the years.
- Research and development is an integral part of Pharmagen. Our research and development manifestation is our belief in quality improvements and innovation aimed at adding value for all stakeholders.

## MANUFACTURING AT A GLANCE

Pharmagen currently has three dedicated operational production facilities at its manufacturing site near Lahore, Pakistan. The fourth multipurpose production facility at the same site is almost complete and will commence commercial production during the first quarter of 2014.
